

Minimum Wages Hurt the Most Vulnerable Workers

Foundation for Economic Development · April 2026

This errata documents corrections to the state rankings in Figures 4 and 5 of the above report. The revised version (28 April 2026) supersedes the initial release. The substantive findings, national-level figures, and all conclusions of the report are unaffected.

FIGURE 4 · Share of workforce earning under the minimum wage

Initial version

Revised version (28 April 2026)

FIGURE 5 · Share of workforce earning under three-fourths of the minimum wage

Initial version

Revised version (28 April 2026)

The national figures (64% below the minimum wage; 47% below three-fourths of the minimum wage) are unchanged. The correction affects only the relative ordering of states within those distributions. All other data, analysis, and recommendations remain as published.
